

June 2019

The report from our Focused Compliance and Educational Quality Inspections that took place during the first week of June 2019 is now available.

The Focused Compliance Inspection looked at our compliance with the Independent School Standards and I am pleased that The Study has met all the standards for regulatory compliance. The Educational Quality Inspection focused on two areas: the achievement of pupils and the personal development of the pupils; I am delighted that the school has been judged 'excellent' (which is the highest of the ISI descriptors) in both areas.

What pleases me most is that the inspectors, in their short time at the school, gained an understanding of what makes The Study special and this is very much reflected in their report. I am hugely proud of all the girls and staff, whose hard work has led to this fantastic outcome.

Yours sincerely,

Susan Pepper
Headmistress
